

## Summer Internship Program – Power Markets

Location: Islamabad, Pakistan

### About Renewables First

Renewables First (RF) is a think tank for energy and the environment. Our work addresses critical energy and natural resource issues to make energy and climate transitions just and inclusive. By emphasizing inclusivity and immediate action, we are positioned to drive change that is both sustainable and equitable.

On our journey to engage with the youth and prepare them for the future of energy transition in Pakistan, we have 3 to 4 slots available for summer interns. This 4-week internship starts on June 24, 2024 (After Eid-ul-Azha).

### Work Description

Renewables First (RF) seeks an initiative-taking Summer Interns, eager to be at the forefront of Pakistan's power sector planning and reform. This internship at Renewables First provides an excellent opportunity for students to learn about the dynamics of electricity generation, transmission, distribution, and the manifold issues in policy, planning, and procurement involved therein. The internship will be housed at the Power Markets Team at RF and will be an excellent opportunity for students to learn about how electricity markets and models evolve, how modeling and simulation exercises of the national electricity grid are carried out, how resources are efficiently utilized, how effective policies may be drawn up and what role renewable energy resources can play in stabilizing the power sector and the national economy.

### Key Responsibilities

1. Facilitate seamless coordination and operational support.
2. Assist in day-to-day tasks such as write-ups, reviews, data collection, and reporting.
3. Participate regularly in capacity-building sessions, and training, and conduct assignments.
4. Aid in organizing schedules, coordination, and gathering necessary materials for various events and activities.
5. Contribute to outreach efforts targeting potential stakeholders, participants, and partner organizations.
6. Collaborate closely with the team to contribute innovative ideas, assist in brainstorming sessions, and collaborate on projects aimed at advancing sustainable energy practices.

RENEWABLES FIRST

### Qualifications

1. Currently pursuing or recently completed a bachelor's degree in engineering **or related** field.
2. Enthusiastic about working in the power sector, with an interest in both technical aspects and broader social implications of policies.
3. Good organizational and multitasking skills with the ability to prioritize tasks effectively.
4. Excellent communication skills, both written and verbal.
5. Proficiency in Microsoft Office.
6. Ability to work collaboratively in a team and independently when required.

### Perks of interning with RF

- o Gain firsthand experience collaborating with seasoned professionals, accelerating your learning curve.
- o Experience a flexible work environment promoting a healthy work-life balance.
- o Join a supportive team encouraging open communication and idea-sharing.
- o Build industry connections through networking opportunities and events.
- o Enhance your skillset through continuous learning and development initiatives.
- o Receive constructive feedback and performance evaluations for professional growth.
- o **A nominal stipend will be provided at the end of the program, subject to completion of assigned tasks.**

### Application

This internship program will take place from **June 24 to July 19 (4 weeks)**. The last date to apply for this position is **June 14, 2024**. We process applications on a rolling basis.

Female candidates are strongly encouraged to apply.
